

Notes to consolidated financial statements:

1. The company's consolidated financial statements are prepared in conformity with U.S. generally accepted accounting principles (U.S. GAAP).

2. In order to be consistent with generally accepted financial reporting practices in Japan, operating profit (loss) is presented as net sales less cost of sales and selling, general and administrative expenses. The company believes that this is useful to investors in comparing the company's financial results with those of other Japanese companies. Please refer to the accompanying consolidated statement of operations and Note 3 for U.S. GAAP reconciliation.

3. Under U.S. GAAP, expenses associated with the implementation of early retirement programs at certain domestic and overseas companies are included as part of operating profit (loss) in the statement of operations.

4. In June 2009, FASB issued the FASB Accounting Standards Codification (ASC) 105 "Generally Accepted Accounting principles". Accordingly, consolidated financial statements for the period ending after the effective date of ASC 105 should contain Codification citations in place of any corresponding references to legacy accounting pronouncements. The company adopted ASC 105 for the six months ended September 30, 2009. The Codification does not change or alter existing U.S. GAAP and, therefore, the adoption of ASC 105 did not have an effect on the company's consolidated financial statements.

5. The company adopted ASC 805, "Business Combinations" (formerly SFAS No. 141 (revised 2007), "Business Combinations") and ASC 810, "Consolidation" (formerly SFAS No. 160, "Noncontrolling Interests in Consolidated Financial Statements—an amendment to ARB No. 51") for fiscal 2010. ASC 805 and 810 require most identifiable assets, liabilities, noncontrolling interests, and goodwill acquired in a business combination to be recorded at "full fair value" and require noncontrolling interests (referred to as minority interests until fiscal 2009) to be reported as a component of equity, which changes the accounting for transactions with noncontrolling interest holders. Accordingly, "Noncontrolling interests," which was referred to as "Minority interests" and was classified between liabilities and stockholders' equity on the consolidated balance sheet as a separate component until fiscal 2009, are now included in equity. The presentations of the other financial statements were also changed. These presentation requirements have been adopted retrospectively and prior year amounts in the consolidated financial statements have been reclassified to conform to ASC 810.

6. Comprehensive income (loss) attributable to Panasonic Corporation was reported as a loss of 59,138 million yen for the six months ended September 30, 2009, and a gain of 122,745 million yen for the six months ended September 30, 2008. Comprehensive income (loss) attributable to Panasonic Corporation includes "net income (loss) attributable to Panasonic Corporation" and increases (decreases) in accumulated other comprehensive income (loss) attributable to Panasonic Corporation.

7. Diluted net income (loss) per share, attributable to Panasonic Corporation common shareholders, for the second quarter, six months ended September 30, 2009 and for the second quarter of fiscal 2009, has been omitted because the company did not have potential common shares that were outstanding for the period.

8. Regarding consolidated segment profit, expenses for basic research and administrative expenses at the corporate headquarters level are treated as unallocatable expenses for each business segment, and are included in Corporate and eliminations.

9. The company's business segments are classified according to a business domain-based management system, which focuses on global consolidated management by each business domain, in order to ensure consistency of its internal management structure and disclosure.

Principal internal divisional companies or units and subsidiaries operating in respective segments are as follows:
